

PressureHab Habitat Technician

Would you like to deliver safety to the Oil & Gas Industry? We are the leading provider of ATEX & IECEx certified hot work habitats. We currently have opportunities to work as a PressureHab certified Habitat Technician.

As a Habitat Technician you will be reporting directly into the Project Manager and working on our Customer assets in the north sea or deployments worldwide.

Travel will be required to various sites, and globally, on an ad-hoc basis.

We pride ourselves on employing the best professionals around. Join us and you'll be part of something important; something you can be proud of.

Your main responsibilities as a Habitat Technician will involve:

- Maintain a firm commitment to safety behaviors and protocols that lead to an incident and injury free project site
- Ensure projects are delivered to meet safety, quality, and schedule objectives
- Conduct site surveys, and produce meaning full reports
- Schedule and facilitate toolbox talks on site
- Prepare and deliver project status reports, and keep management informed of project status
- Construct pressurized habitats on job sites
- Operate and troubleshoot habitat equipment

Your skills and qualifications as a Habitat Technician:

- Understand the Oil & Gas safety culture
- Proven track record in safe work practices in the Offshore Oil & Gas industry
- Good communication abilities within the project team, and towards customer representatives
- Understand and interpret work documents, drawings, specifications, scopes of work and project schedule
- Experience of developing and maintaining excellent customer relations
- Demonstrated ability to make decisions with clarity in an environment of ambiguity & uncertainty
- Full Passport, Offshore Medical Certificate, Basic Offshore Safety Induction and Emergency Training (BOSIET)

Desirable skills:

- Ideally experience in the Oil & Gas service business
- Experience of IEC & ATEX standards and directives
- CompEx Qualifications
- Scaffolding skills

What we're looking for in you:

You will have a positive attitude, and the ability to create & maintain a safe work environment. We pride ourselves on behaviours, so the successful individual must be a role model in terms of exhibiting collaborative, constructive and motivational behaviour; and must have demonstrated the ability to achieve results through positively influencing others. Whatever you do, you'll have the satisfaction of knowing you're making a difference to people's lives.

Location: International deployments out of Altens, Aberdeen, Scotland

Salary: Competitive - dependent on experience

Benefits: Our employees receive an excellent benefits package which includes a competitive pension scheme, and enhanced annual leave allowance.

PressureHab

PressureHab is one of the world's leading global provider of certified hot work habitats, portable gas detection systems, and confined space ventilation rental companies. We work at the cutting edge of technology, and our equipment is second to none in the industry.

PressureHab is an equal opportunities employer. We value diversity and welcome applications from candidates from all backgrounds. Please note we will not use any personal information relating to your background at any stage of the application process.
